PREFACE.

There has long been felt a want for a complete Directory and Guide to Alton, and it was the expression of this want by many of our leading merchants that has led to the publication of this work.

In the first edition of a Directory, there will be trifling inaccuracies and omissions, caused chiefly by the imperfect information we occasionally receive, for all of which, we ask the indulgence of the public, and as it is our intention to continue the publication of the Directory as often as is thought desirable, we hope to profit by the experience we have had, and be enabled to make many valuable improvements in succeeding issues.

It would make a Directory far more valuable were the names of the streets posted and the houses numbered, and as there appears to be a general desire for this to be done it is hoped the City Council will take the matter in hand.

Many thanks are due to those who have advertised in the work, thereby benefitting themselves and aiding very materially the undertaking; we trust the manner in which the cards are displayed will prove satisfactory.

The Compilers take this opportunity of acknowledging the assistance rendered them by GEO. SMITH Esq., of Upper Alton.

In conclusion, the book is thrown upon a generous public with the hope that whatever imperfections it may have will be kindly overlooked and that it may meet with the satisfactory reception which the Publishers have labored to achieve.

provement of their lots. All admit that rough as it is, it is far pref... able to a dead level. Perfect drainage has been secured, rendering it one of the most healthy places on the continent, and when built up, its beautifully improved undulations will possess a charm to the eye which no level site can ever give.

Up to 1827, the "town of Alton" made but very little progress. Upper Alton completely overshadowed it, and Milton, now reduced to a single tenement, was a dangerous rival. In the year just mentioned Gov. EDWARDS and other property holders procured the location of the Penitentiary here, and in 1829, the work of building it was commenced upon a part of a ten acre tract of land donated to the State for the purpose, and which lies west of State street. From this time the town grew rapidly. In 1831 the Alton Manufacturing Company built the large steam flouring mill (now the Messrs MITCHELL'S) on the river bank in front of the Penitentiary, and the same year D. A. SPAULDING built a saw mill on the little Piasa creek, in the rear of the store now occupied by B. A. CARPENTER & Co., on Second street.

In 1832, O. M. ADAMS and EDWARD BREATH, (the latter now a missionary in Persia) started the *Weekly Spectator*. In 1833 Mr. ADAMS sold out his interest to Mr. BREATH, and in October 1834, Mr. BREATH sold the establishment to J. T. HUDSON. The paper was continued under that name until 1838, when it was christened the "*Gazette*," and by that name was published until 1840, having been successively edited by O. M. ADAMS, ED. BREATH, J. T. HUDSON, B. K. HART, WILLIAM MARTIN, S. A. SAWYER, WILLIAM HESSIN, GEO. T. BROWN, J. H. PETITT, and S. S. BROOKS during the eight years of its existence.

In 1835, the Penitentiary Commissioners laid off a portion of the Penitentiary ground into lots and sold them. The lots are situated between State street and the Penitentiary wall, and between Short and Park streets, and are now among the most valuable and best improved in the city.

In 1836, the Alton and Springfield road was surveyed by PROF. MITCHELL of Cincinnati.

In January, 1836, TREADWAY & PARKS commenced the publication of the *Weekly Alton Telegraph*, which continued in existence until May, 1855, when it was purchased by the *Courier* office. During its life time its editors were R. M. TREADWAY, L. A. PARKS, M. G. ATWOOD, JOHN BAILHACHE, G. T. M. DAVIS, W. H. BAILHACHE, and E. L. BAKER.

During the spring of this year, Rev. E. P. LOVEJOY removed from St. Louis and commenced the publication of a weekly religious newspaper called the *Observer*.

At the special session of the Legislature, held July, 1837, an act was passed to incorporate "The City of Alton." A vote of the inhabitants was taken and the charter accepted. In September of the same year the first election for city officers was held, which resulted as follows:

Mayor—JOHN M. KRUM. Register—H. G. MCCLINTOC. Treasurer—JOHN H. SPARR. City Collector—S. C. PIERCE. Street Commissioner—J. B. HUNDLEY. City Constable—S. L. MILLER. Assessors—BEAL HOWARD, W. G. PINCKARD and W. POST.

At the same time, WILLIAM MARTIN was elected Judge of the Municipal Court, which was abolished in 1839. Since 1837, the chief executive officer, the Mayor, for the years following were:

1838—CHARLES HOWARD.
1839—JOHN KING.
1840—STEPHEN GRIGGS.
1841—WILLIAM MARTIN.
1842—SAMUEL G. BAILEY.
1843—STEPHEN PIERSON.
1844—G. T. M. DAVIS.
1845—G. T. M. DAVIS.
1846—G. T. BROWN.
1847—EDWARD KEATING.
1848—ROBERT FERGUSON.
1849—SAMUEL WADE.
1850—SAMUEL WADE.
1851—H. W. BILLINGS.
1852—T. M. HOPE.
1853—S. A. BUCKMASTER.
1854—O. M. ADAMS.
1855—SAMUEL WADE.
1856—JOSEPH BROWN.
1857—SAMUEL WADE.

At this period, (1837,) Alton boasted of a very large trade. The largest mercantile houses in the West were located here, and two banks, branches of the State and Shawneetown banks gave great facilities to the merchants. Many of them imported directly from Europe, and a large amount of goods was sold to merchants in the interior. A single firm controlled the entire lead trade of the North, every pound being landed at our wharf and then re-shipped. Quite a number of steamboats were owned here, and a heavy direct trade was carried on with New Orleans. Alton had a big name abroad. In November the Lovejoy riots occurred, followed immediately by the terrible commercial revulsion, which swept over the entire country like a hurricane. The merchants were compelled to yield to the blast. General bankruptcy followed. A large portion of the real estate of the city passed into foreign hands, and the population had to begin the world anew. The crash having brought everything to its level, industry soon began to exhibit its benign effects. Gradually as the years rolled on, piece after piece of the real estate was bought back by our citizens, until in 1845 the real estate remaining in the hands of non-residents, (Col. RUSSELL, one of the original proprietors alone excepted,) was insignificant in amount. At the present time it may safely be said that no city in the West can show so few non-resident owners of property.

With the commencement of the Alton and Sangamon Railroad might be dated the most powerful impulse given to the prosperity of Alton. To Capt. B. GODFREY, the city is mainly indebted for this great work. Soon afterwards followed the Terre Haute and Alton Railroad—then the Illinoistown and Alton Railroad, and now the Jacksonville and Alton Railroad, partly built. A plank road was also built half way to Carrollville. The improvement of the wharf, (now the finest on the Mississippi river) was carried forward, and large numbers of streets were graded, McAdamized and miles of side walk laid. An excellent system of common school education was adopted, now one of the chief beauties of the city, to which a high school on an admirable plan is immediately to be added. The *Alton Presbytery Reporter* was started in 1845, and is yet published. The *Courier* Newspaper, Job Printing and Book Binding Office was established, and has grown to be the largest and finest establishment of the kind in the West. The splendid Foundries and Machine Shops of N. HANSON & Co., JOHNSON & EMERSON, W. T. B. READ, J. D. BRUNER & Co., STIGLEMAN & Co., were built; the *Alton National Democrat* was started, and also the *Beobachter* (German,) the *Erie Presse* (German,) and the *Telegraph Business Directory*. Gas Works were built and put in operation, lighting the streets, stores and dwellings.

Alton has religious denominations of nearly all creeds, within her bounds. Presbyterian, Methodist, Baptist, Episcopal, Unitarian, Catholic, German Reformed, Lutheran, Mormon, and Spiritualists not a few; all of whom have church buildings. Her educational facilities are not surpassed anywhere. With Shurtleff College and Monticello Seminary, a High School, nine Common School Departments, and a number of Private Select Schools, there are opportunities for all. The Church buildings are all plain, comfortable structures, except the Catholic Cathedral which is now being elaborately finished, and will be one of

the finest public buildings in the United States. The Baptist, Episcopal, Unitarian, Presbyterian and Catholic Churches are each furnished with organs; those in the Unitarian and Presbyterian Churches being large and powerful.

The various orders of Free Masonry, Odd Fellowship and Temperance, have organizations. Also a flourishing Library Association, an Atheneum; a large Philharmonic Society, and a Good Samaritan Society. A Merchant's Exchange and Board of Trade are now also organized. The Alton Bank is the only institution of issue in the city. There our merchants and business men deposit their funds and buy their exchange. The great Illinois Mutual Insurance Company, the best in the world—having over two hundred agents, is located here, and the City Mutual Insurance Company, whose capital stock is owned by our merchants and business men, is doing a safe and profitable business. Agencies are here established for all the best insurance companies in this country and in Europe. We have semi-daily mails from North, East and South; daily from all other quarters, and telegraph lines reaching everywhere. The Chicago and Alton, and Terre Haute and Alton Railroads each run semi-daily trains to St. Louis; and the Baltimore, a swift packet, makes a daily trip to and from the same city.

During 1856 and 1857, a better class of buildings was erected in Alton than at any previous period. Of those erected for business purposes, may be mentioned the splendid new mill of the Messrs. Wise, the warehouses of Messrs. Mitchell, Wise, Hope and Hart, the *Courier* Office, Alton Bank, and the Illinois Foundry Machine Shop. Of the dwelling houses erected during the same time, may be mentioned those of Messrs. Atwood, Billings and Barry.

Alton has a regular night police; a disgraceful calaboose; a still more disgraceful market house shed; four splendid fire companies, with complete apparatus; two military companies; three brass, and several quadrille bands.

On the public (or Market) Square is being erected a splendid city building, for public use. It is designed for a Market House, City Hall, Engine House, with rooms for the city officers, with a calaboose in the basement. The upper story is to be a public hall, 50x90 feet, with dressing rooms adjoining, and when finished will be one of the finest halls in the West, capable of comfortably accommodating one thousand persons. The entire building will cost about $35,000, and is to be finished in September of this year.

At the time of writing this sketch we hear of a large number of buildings, stores and dwellings, to be erected during the year. Gas is to be carried to and through the principal thoroughfares, and a company is already organized to build Water Works, which are expected to be in operation by the first of October next, at which time it is presumed the Jacksonville and Alton Railroad will be so far completed as to admit of trains running to Jerseyville.

Of the future of Alton it is not intended to speak, except with reference to a single event, now certain, and which must have a vast influence upon her future prosperity. We mean the early removal of the Penitentiary.

Upon the business of Alton, the Penitentiary has been an incubus for thirty years. When located in the year 1827, and during its erection, it had a favorable effect upon the business of the place, and assisted in bringing it into notice. Since then its influence has been adverse. In June of this year the lease of Col. Buckmaster will expire, at which time a large portion of the convicts will doubtless be removed. In a short time thereafter the removal of all the convicts will be effected,

and as it may very reasonably be presumed that the *demand* for manufactures will not diminish, there will be room and a necessity for the labor of at least four hundred able bodied mechanics, who, with their families, will make an increase of at least two thousand to our population, and also considerable wealth, beside throwing open for improvement one of the best tracts of land in the city. The year 1827 witnessed its location. The year 1857 was signalized by its removal. To the City Council of last year, and particularly to Mayor Brown, are our citizens much indebted for their patriotic labors in this behalf.

As a manufacturing point, Alton has no equal upon the Mississippi river. Built upon a solid limestone, famed over the country for building purposes and for the manufacture of lime, with inexhaustible mines of the finest bituminous coal and myriads of beds of the finest clay for brick and earthern ware, with the noble Mississippi floating by at her feet, and railroad communication in every possible direction; with cheap lots, low rents, and the agricultural products of the country at her doors seeking a market, she can defy competition. In 1838 the mercantile interests of the city overshadowed everything. In 1858 the manufacturing interest is far ahead of any other, and if our citizens are true to themselves they will encourage that interest in every possible manner.

Of the past history and present prospects of Alton much more could be said, if the limits of this outline sketch did not forbid. Such as are seeking a location, can judge of the prospects of the city from a general survey of its present business, the country that supports it, the means of communication, &c. Of the health of the citizens, they cannot so well form an opinion, and to that point we will simply speak before we close.

From 1827 up to 1839 chills and fevers prevailed over the whole Western country. Alton had her full share. From 1839 to 1844, the year of the unprecedented rise of the Mississippi river, fevers were prevalent. From 1844 until the present time, the health has been excellent; not equalled by any place of the same population in the Union. The city mortuary reports, published monthly in the *Courier* for the past five years, show a per cent. of mortality so small as to be almost incredible, but which fully authorizes the statements here made, and upon this most important point our citizens can speak with certainty.

January, 28, 1858.

1858. 1858.

THE

ALTON COURIER.

PUBLISHED

DAILY, TRI-WEEKLY AND WEEKLY.

A Paper for the Farmer, the Merchant, the Artizan, the Professional Man, the Mechanic, the Politician and Family Circle.

THE DAILY COURIER is the largest Daily paper published in Illinois—outside of Chicago—and contains all the latest State, National, and Foreign intelligence, that can be obtained by mail or telegraph.

THE TRI-WEEKLY COURIER is of the same size as the Daily; and each number of the Tri-Weekly contains all the reading matter of two Dailies.

THE WEEKLY COURIER is the largest paper published in Illinois, and is filled with political and general news, both foreign and domestic; congressional and legislative reports; agricultural, literary and miscellaneous matter; commercial and financial intelligence; the markets, &c., &c.

Music is an extra charge of - - - - -	11 00

Payment to be made invariably in advance.

BOOKS AND STATIONERY FURNISHED AT STORE PRICES

STATE STRET, ALTON, JANUARY 1, 1858.

MONTICELLO
FEMALE SEMINARY.

This Institution was founded by BENJAMIN GODFREY, Esq., and is situated at Godfrey, Illinois, four miles from Alton. The chief building, erected in 1836–7, is a substantial and neat edifice of stone, 110 by 44 feet, and three stories high over a basement. [*See Frontispiece.*]

The original cost to the founder was $53,000. During the past year, a fourth story has been added, and a wing 60 by 75 feet, at an additional cost of nearly $30,000.

There are now accommodations in the building for 150 pupils.

The Seminary grounds consist of 16 acres, neatly enclosed, with the main building in the centre. The yard immediately in front consists of four acres, having convenient walks, with trees and shrubbery.

The *healthfulness* of the situation is proverbial, there having never been a death of a pupil in the Institution.

There is in the Institution a Philosophical and Chemical apparatus; a library consisting of nearly one thousand well selected volumes, and a cabinet of minerals, &c., consisting of about seventeen hundred choice specimens—selected by Professor SHEPHERD, of New Haven, which cost nearly $1,000.

The design of the Institution is to furnish Young Ladies with an education *substantial*, *extensive* and *practical*,—that shall at the same time develope harmoniously their *physical*,

intellectual and *moral* powers, and prepare them for the sober duties and duties of life.

The School was opened for pupils in April 1838; since which time about fifteen hundred young Ladies have availed themselves of the benefits of it, for a longer or shorter period; a considerable number having gone through the whole course, and received a diploma.

The course of Instruction occupies four years, exclusive of the preparatory studies.

The studies during the *first year* are Ancient Geography, Physiology, Latin, Critical Reading, Ancient History, Philosophy of Natural History, Algebra and the Pentateuch.

Second Year, Modern History, Rhetoric, Geometry, Latin, Critical Reading, Trigonometry, and Jewish History.

Third, or Junior Year, Chemistry, Conic Sections, Natural Philosophy, Latin, Critical Reading, Logic, Evidences of Christianity and Life of Christ.

Fourth, or Senior Year, Geology, Political Economy, Moral Philosophy, a Modern Language, Criticism, Astronomy, Intellectual Philosophy and Bible Topics.

Composition weekly, throughout the course.

Music, instrumental and vocal, painting, and drawing, and modern languages are also taught to those who desire them.

There is one Term of forty weeks in each year, commencing the third Wednesday in September, and ending on the fourth Wednesday in June.

Applicants for admission should address the Principal at Monticello, Godfrey P. O., Ill.

TRUSTEES.

REV. TRUMAN POST, PRESIDENT,
BENJAMIN GODFREY, ESQ., TREASURER,

STREET DIRECTORY.

The stranger unacquainted with the location of the streets named in this Directory, would still be put to great inconvenience before he could arrive at his destination. In order to facilitate his research, the following street guide will be found to be not the least important portion of this book.

We propose to take for our basis Piasa Street, which runs northwards from the river, and conspicuous, inasmuch as the St. Louis, Alton & Chicago Railroad runs through its center. The streets printed in *italics* are not yet built upon, and consequently, are not mentioned in the Directory.

Alby runs n and s 2d block e of Piasa.
Alton runs n and s 4th block e of Piasa.
Apple runs n and s 14th block e of Piasa.
Arch runs from Union to Pearl, 2d block e of Henry.

Beacon runs n and s from Park to State, n of penitentiary.
Belle runs n and s 1st block w of Piasa and n of 3d.
Bloomfield n e part of city.
Bluff runs n e from the river to State, 7th block w of Piasa.
Bond runs e and w from Prospect to State, n of penitentiary.
Cherry runs n and s 12th block e of Piasa.
Common runs n from 15th, and 4th block e of Henry.
County road runs w from the penitentiary by the river side.
Dry runs n e from State.
Diamond runs n and s (north of city) 10th block e of Piasa.
Easton runs n and s 3d block e of Piasa.
Eighth runs e and w 7th block n of river.
Eleventh runs e and w 10th block n of Piasa.
Fifth runs e and w 4th block n of river.
Fifteenth runs e and w 14th block n of river.
Fourth runs e and w 3d block n of river.
Fourteenth runs e and w 13th block n of river.
Franklin runs e and w from Henry to Common, 19th block from river.
Front e and w fronting the river.
Garden runs n and s n e of city.
George runs n and s 5th block e of river.
German n e of cemetery.
Gold n e of city.
Greene n e of city.
Grove runs e and w from Liberty to Common, 18th block from river.
Hampton n e of city
Harrison n e of city.
Hamilton runs from 10th to 11th, 1 block w of Piasa.
Henry runs n and s 7th block e of Piasa.
Langdon runs n and s 6th block e of Piasa.
Levee from Piasa to penitentiary.
Liberty runs n from 5th, 8th block e of Piasa.
Main, north of city, and w of Piasa.
Man runs from 9th to 10th, 2d block w of Piasa.
Maple runs n from 15th, 3d block e of Henry.
Market runs n and s, 1st block e of Piasa.
Marshall, junction of Belle and 11th.
Mechanic runs from 6th to 8th, between George and Langdon.

Narrow n w of city, one block e of State.
Ninth runs e and w, 8th block n of river.
North runs n from Union, 4th block e of Henry.
Oak runs s w from State, between Prospect and Bluff.
Oak runs n and s, 10th block e of Piasa.
Park runs e and w, half a block n of penitentiary.
Pear runs n and s, 16th block e of Piasa.
Pearl runs e from Liberty, one block n of Union.
Piasa runs n and s, the railroad track of St. L., A. & C.
Pleasant, continuation of 12th, from Henry to Liberty.
Plum runs n and s, 15th block e of Piasa.
Prospect runs from river to State, 1st block w of penitentiary.

PREMIUM NOTES IN FORCE,
Being the Capital of the Company, held for payment of Losses.

$950,000 00,

Secured by a Lien on the Buildings Insured, and the Land on which the stand, Valued at over **$10,000,000 00**

Dwelling Houses and Furniture; Barns and Hay and Grain; Stores and Merchandise; Shops and other Buildings, with their contents

INSURED AGAINST LOSS OR DAMAGE BY FIRE

On the most Favorable Terms.

THE Directors of this Company would call the attention of the owners of insurable property in Illinois, to the inducements the Company have to offer for their especial patronage.

1st. The rates of premium are lower than those charged by any foreign stock company—for the reason that the Company has no *bonus* to pay to the holders of stock—but have only to meet losses and expenses.

2d. The stability that Insurance by this Company affords. Its Capital is not affected by the fluctuations in the value of Bank and Railroad Stocks—neither is it transferable at the pleasure of the Directors.—But it is a *real* capital, amounting to Nine Hundred and Fifty Thousand Dollars, secured upon Real Estate *owned by the assured*, and worth ten times the amount. This Capital is held *positively*, and not *ficticiously*, for the payment of losses—augmenting as the risks increase.

3d. Its prompt and equitable adjustment of losses;—and the facility with which Insurance may be affected through the numerous Agents of the Company, one of whom may be found in every City, Town or County in the State.

A. HUBER. LEOPOLD DE LUEW.

A. HUBER & CO.,

Druggists and Chemists,

THIRD STREET, BET. BELLE & PIASA,

ALTON, ILLINOIS.

We beg leave to announce to the public that we have purchased the store formerly kept by DR. TH. CANISIUS, and hope by strict attention to business, and the most liberal terms, to merit a share of the public patronage.

In addition to the large stock of MEDICINES, we will keep on hand a large assortment of

PAINTS, OILS, BRUSHES,

PERFUMERY, TOBACCO, SNUFF,

AND

Genuine Havana Cigars,

And every thing else that can be found in a first class Drug Store, here or elsewhere, which we will sell as cheap, or cheaper, than any similar establishment in the city.

BEING PRATICAL DRUGGISTS & CHEMISTS,

The public can rely on having

Prescriptions filled with the best of Medicines,

And with Accuracy and Dispatch.

In order to facilitate the getting of Medicines at night, we have hung a night bell, so that the difficulty which persons sometimes experience in obtaining Medicines at night, may be avoided.

N. B.—The Night-Bell is situated on the next column to the show-window.

J. WALTON & DAUGHTER,

WILL KEEP A GENERAL VARIETY OF

DRY GOODS, CLOTHING,

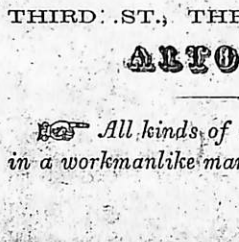

Hats, Caps, Shoes, Books and Stationery, Fruits,

Musical Instruments, Watches, Clocks; one second-hand Piano Forte and all useful and necessary articles generally kept in a Variety Store; but Liquors, Tobacco, and the useless humbuggery, I discard and abominate.

I have, also, Houses and Lots to sell in Alton, and Land in the County. My Store lies between Front and Second streets, in Alton, Illinois, having a Storage and Commission Room, and Cellar, on Water or Front street, and our Variety Store fronting Second street. What cannot be found elsewhere may be found with us. However, call one and all, and see for yourselves. My meat, drink, &c., is milk, honey fruits, vegetables. Meat, coffee, tea, &c., I neither use nor sell; neither will I keep to sell, powder, shot, guns, pistols, whips or lashes, or anything to take the life of man or beast, or to inflict pain, as I saw enough of the cruel lash while living South some thirty-six years. Away with all life-taking and torturing instruments, &c., &c.

UPPER ALTON.

SKETCH OF UPPER ALTON.

Upper Alton is located on the high rolling timber land in the rear of the city of Alton, two miles from the Mississippi vrier. The situation a dry, healthy, pleasant and desirable one, especially for family residence. The population is rising of two thousand. The town was laid out by Jos. Meachan, Esq., an emigrant from the State of Vermont, in the year 1817. Several additions have since been made to the original town plat, and which now embraces the south west quarter of section six and the whole of section seven, town five, range nine.

Shurtleff College (named after one of its early friends and munificent donors, Dr. Benj. Shurtleff, of Boston,) is located within the bounds of the town. It is a popular and flourishing Institution under the charge of the Baptist denomination. Dr. D. Read, a talented and popular divine, stands at the head of an equally able and popular faculty. The cheapness of land, and facilities for acquiring a thorough education is not excelled, and, most probably, not equalled, by any other place in the West.

There are five free schools with able and competent teachers in the town; mainly supported by public funds, and conducted in accordance with the provisions of the School Law of the State.

The moral and religious character of the people will compare favorably with any village in the State, of its size and business. In 1820 or 1821 a Sabbath School was here organized, and conducted by able and competent teachers, being the first established in the State.

It was in Upper Alton that the first Washingtonian Temperance Society was formed, which sent out lecturers to the various parts of the State, and to Iowa; forming other societies of a like character, by which a great amount of good was effected, and which is apparent even to this day in many places.

The mercantile business done here is only of a retail character; the heavy business being chiefly done on the River. There are six dry goods, and family grocery stores, one hardware and one drug store, which do a heavy retail business.

The manufacturing business is very considerable, particularly the coopering and potter's ware, brickmaking, &c. An abundance of the finest clay for brick, is here found; as well as clay suitable for potter's ware, in the vicinity, All kinds of stone ware, stone pipe, for conveying water under ground, and stone pumps are manufactured here in large quantities, and sent out in all directions, by land and water. There are from six to eight potteries in constant blast, three of them do salamander work, and one does terra cotta work; all of which is made profitable to the proprietors. In addition there are three saddle and harness shops, several blacksmith shops, wagon and buggy shop, several shoe shops, paint shops, and tin ware manufactory, &c., &c.

Most of the cooper's work being flour and pork barrels, are disposed of to the millers and beef and pork packers, in the city of Alton.

The public buildings in Upper Alton are two stone churches belonging to the Baptists and Presbyterians, and a brick church belonging to the Methodist denomination; in which service is performed by able and efficient pastors. Also, a Masonic Hall.

In the year 1822 a Lodge of Free and Accepted Masons was organized and installed, called "Olive Branch Lodge," being the first in this part of the State, since that time two other lodges, a chapter, and temple, and a Division of the Sons of Temperance have been organized.

In the year 1818 a post office was established here; Dr. AUGUSTUS LANGWORTHY, an early emigrant from Vermont, was the first Post Master. The office was supplied with a weekly mail, carried on horseback on a mail route from Carlyle, Ill., to St. Charles, Mo., crossing the river at Alton; the office was then called Alton. In the year 1823 Rev. B. MAXEY, who was one of the early circuit preachers in Virginia, and who emigrated to Ohio, and then to Illinois, was appointed postmaster by JOHN MCLAIN, then Post Master General, and the name of the office was changed to that of Salu, an addition to Upper Alton, where the venerable old gentleman resided. In 1826, Mr. Maxey resigned, and George Smith was appointed, and the office was brought back from Salu, and the name changed back to that of Alton, and continued so until 1835, when David Smith received the appointment, and the name "Upper Alton," substituted. The office at Alton City which had previously borne the name of "Lower Alton," was called "Alton."

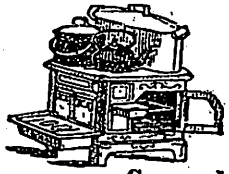

In the year 1849, F. HEWIT, Esq., was appointed postmaster, at Upper Alton, and held the appointment until 1853, when the present incumbent JOSEPH CHAPMAN, Esq., received the appointment.

Hon. JAMES W. WHITNEY, (familiarly called *"Lord Coke,"*) now the oldest lawyer in the State, resided in this town for many years after his emigration to the State in 1817, he was a fine classical scholar, and well versed in the intricacies of the Law. He is now upwards of eighty years of age, and resides in Adams County.
